Dear Soumya,

I am pleased to write this letter of recommendation for Soumya Ranjan Mohapatra, who has been working with BoosterNetWave as an AI Engineer for the past two years, since 2024. During this period, Soumya consistently demonstrated exceptional technical expertise, strong problem-solving abilities, and a high level of professionalism.

As an AI Engineer, Soumya played a key role in designing, developing, and deploying several impactful AI-driven solutions. He was deeply involved in end-to-end machine learning workflows, including data preprocessing, model development, optimization, deployment, and performance monitoring. His ability to translate complex business requirements into scalable AI solutions made him a valuable asset to our organization.

Some of the notable projects Soumya successfully completed include:

Intelligent Computer Vision Surveillance System – Developed a real-time object detection and tracking pipeline using YOLO and OpenCV, significantly improving monitoring accuracy and operational efficiency.

Automated Alerting & AI-Based Messaging Platform – Built an AI-powered system that generated real-time alerts and automated messages based on model inference and event triggers.

LLM-Powered Internal Knowledge Assistant – Contributed to the design and integration of a large language model–based assistant to help teams query internal data using natural language.

Cloud-Deployed ML Pipelines – Implemented scalable ML pipelines on cloud infrastructure, ensuring reliable CI/CD, monitoring, and performance optimization.

Soumya consistently delivered high-quality work and often went beyond expectations by proactively suggesting architectural improvements and optimization strategies. His strong grasp of AI/ML concepts, cloud platforms, and backend systems allowed him to collaborate effectively across teams and deliver production-ready solutions.

Beyond his technical skills, Soumya is a dedicated, disciplined, and highly motivated professional. He learns new technologies quickly, adapts well to challenges, and maintains a positive attitude even under tight deadlines. His communication skills and ability to explain complex technical concepts clearly were highly appreciated by both technical and non-technical stakeholders.

Based on his performance and contributions at BoosterNetWave, I can confidently say that Soumya Ranjan Mohapatra would be a valuable addition to any organization or academic program. I strongly recommend him without reservation and believe he will continue to excel in any future endeavor he pursues.

Please feel free to contact me should you require any additional information.

Sincerely,
Lingaraj Senapati, CTO
